

IIQM

Indian Institute of Quality Management (IIQM) has been set up under Standardization, Testing & Quality Certification (STQC) Program of Ministry of Electronics & Information Technology, Government of India. STQC Dte. functions under MeitY and provides Assurance Services in Quality and Security (IT) on a national level. STQC is a key enabler in making Indian electronics industry and IT organizations and users achieve compliance to International Quality Standards so as to compete globally. STQC has received substantial support through Indo-German Technical Co-operation Project during 1980-1995. STQC is represented in all the major national forums such as BIS, QCI, NABL and major Industry Associations.

STQC holds National and International accreditations for its testing and certification services. It has collaborative arrangements with major certification agencies like BSI (UK), UL (USA), TUV (Germany) and others.

STQC is also represented in the International Standards bodies, like ISO.

STQC activities are executed through a country wide network consisting of HQ; ERTLs (4); ETDCs (10); CFR; IIQM; and CETEs (5).

STQC Laboratories/ Centres are involved in Testing, Calibration and Training activities. STQC HQ operates Certification schemes, including Certification of QMS (ISO 9000, ISMS (ISO 27001), ITSMS (ISO 20000-1) and Product Certification for Safety, EMC based on International Standards (IEC).

IIQM operating under STQC Directorate provides training to industry and user departments in the area of QMS, EMS, Laboratory Quality Management, Quality Technology and Information Technology. It has established itself as a professional institute in the subjects taught. IIQM was established in 1994 and since then has trained over 21000 professionals coming not only from different parts of India, but also from outside countries. It was instrumental in starting educational programmes under bilateral arrangements with BITS, Pilani and MQI, Mauritius.

Some of the programs of the institute are also offered on-site on customers' request.
