| <b>Application for IT Product Certification</b>                                   |   |

This Application Form is applicable for IT solutions such as NVR/DVR, RDAS etc. involving the installation of software applications on generic IT devices/servers. For auditing or testing these solutions, STQC conduct a vulnerability assessment and configuration audit (based on international best practices) of the generic IT devices/servers, as well as a security assessment of the software applications (based on open standard e.g. OWASP).
